

# RESTAURANT REOPENING PLAN

Cleaning & Sanitizing Recommendations for  
Phase III

# CLEANING & DISINFECTING PROTOCOLS

Create internal processes and checklists to set expectations for your staff

Perform thorough cleaning in high traffic areas

Provide time for staff to implement cleaning practices during shifts

Conduct regular trainings on new processes and cross-train your staff when necessary

Clean touchable surfaces between shifts or between users, whichever is more frequent

## OUR CLEANING PRODUCTS

BiRite offers a line of EPA Registered disinfectant products that have qualified for use against SARS-Co-V2, the novel coronavirus that causes COVID-19. Although these products have not been tested specifically against SARS-Co V-2, the cause of COVID-19, they are expected to be effective against SARS-Co V-2 because they have been tested and proven effective on either a harder-to-kill virus or against another human coronavirus similar to SAR-Co V-2.

# FOOD SAFE PRODUCTS

*Spray it on and allow to dry for 60 seconds*
