Boylan Bottling Company is a gourmet soft drink manufacturer located in Teterboro, New Jersey which has been in operation for more than 100 years. As part of their gourmet image, Boylan uses cane sugar in their drinks, while most other American beverage manufacturers use high fructose corn syrup due to the prohibitive cost of purchasing sugar (2-3 times higher than the rest of the world) for mass production.

In December, 2012, BiRite Foodservice Distributors acquired A&B Produce Company and welcomed this local, family-owned business into the BiRite family. Sharing the same values, both companies realized the importance of honoring the family legacy. Today, the synergies of both companies has proven to be a great benefit to our customers as BiRite is now stocking and delivering local produce out of the Brisbane facility.
